PROFESSIONAL SUMMARY

Senior Software Engineer and Team Lead with 4.5+ years of experience developing scalable ERP, CRM, Healthcare, BFSI, DMS, and enterprise applications using PHP, Node.js, Express.js, NestJS, Next.js, Laravel, CodeIgniter, PostgreSQL, MySQL, REST APIs and cloud integrations. Experienced in leading Agile teams, designing secure backend architectures, implementing data protection measures and delivering high-performance software solutions

TECHNICAL SKILLS

Languages: PHP, JavaScript, TypeScript, HTML5, CSS3

Frontend: Next.js, React.js, Bootstrap, Tailwind CSS, AJAX, jQuery

Backend: Node.js, Express.js, NestJS, Laravel, CodeIgniter, REST API Development

Databases and ORM: PostgreSQL, MySQL, MongoDB, Prisma ORM, Eloquent ORM, Sequelize ORM

Authentication and Security: JWT, Google OAuth, RBAC

Architecture: MVC, OOP, Design Patterns

DevOps and Tools: Git, GitHub Actions, AWS EC2, Linux, CI/CD, Firebase, Apache, Postman, JIRA, GitHub Copilot, ChatGPT, Gemini

PROFESSIONAL EXPERIENCE

Novami Infotech Pvt. Ltd.

Nashik, India

Team Leader

Aug 2025 – Present

- Led cross-functional development teams in designing scalable backend architecture, defining coding standards and delivering secure, high-performance full-stack web applications using Node.js (NestJS, Express.js), Next.js and PHP (Laravel, CodeIgniter) within Agile environments.
- Architected and developed secure RESTful APIs using NestJS and Express.js, implementing modular architecture, reusable services and middleware-driven request handling.
- Designed and optimized relational database schemas using Prisma ORM, PostgreSQL and MySQL, ensuring data integrity and efficient query performance.
- Implemented secure authentication and authorization using JWT, Google OAuth and Role-Based Access Control (RBAC) across enterprise applications.
- Integrated Firebase, Email Services and third-party APIs to support real-time functionality, automated notifications and business workflows.
- Partnered with international clients for requirement analysis, solution design and sprint planning while mentoring developers, conducting code reviews and driving engineering best practices within Agile teams.

Senior PHP Developer

Apr 2025 – Jul 2025

- Developed, maintained and enhanced scalable enterprise web applications using PHP (Laravel, CodeIgniter), MVC Architecture and Object-Oriented Programming (OOP) principles.
- Designed, developed and maintained secure RESTful APIs and integrated third-party APIs.
- Developed responsive dashboards and interactive user interfaces using HTML5, CSS3, JavaScript, Bootstrap, AJAX, jQuery and Chart.js.
- Implemented secure authentication and authorization using Role-Based Access Control (RBAC) and OTP-based authentication.
- Optimized MySQL database queries, indexing strategies and backend logic to improve application performance and database efficiency.
- Managed application deployment, server configuration, hosting environments, SSL setup, release management and production support.
- Collaborated with cross-functional teams, business stakeholders and QA engineers throughout the Software Development Life Cycle (SDLC) using Agile methodologies.

ESDS Software Solution Ltd.*PHP Developer***Nashik, India***Nov 2021 – Mar 2025*

- Developed, maintained and enhanced scalable backend applications using PHP, CodeIgniter, MVC Architecture and Object-Oriented Programming (OOP) principles.
- Designed, developed and maintained secure RESTful APIs to enable seamless integration across enterprise applications.
- Optimized MySQL and PostgreSQL queries, indexing strategies and database schemas to support high-concurrency production environments serving lakhs of active users.
- Engineered scalable backend workflows and optimized application architecture to ensure reliable performance during high-volume traffic.
- Configured Linux Cron Jobs and SMTP Email Services to automate scheduled processes and business workflows.
- Collaborated with frontend developers to build responsive web interfaces using HTML5, CSS3, JavaScript, Bootstrap, jQuery and AJAX.
- Participated in the complete Software Development Life Cycle (SDLC), utilizing JIRA for sprint planning, defect tracking and Agile collaboration.

TECHNICAL HIGHLIGHTS

- Built and delivered enterprise applications across ERP, CRM, Healthcare, BFSI, DMS, and Workflow Management domains using scalable backend architectures and modern web technologies.
- Designed secure RESTful APIs, authentication systems, third-party integrations, and scalable backend architectures for enterprise applications.
- Collaborated with international clients and cross-functional teams for requirement analysis, solution design, sprint planning, and Agile delivery.

EDUCATION

Bachelor of Engineering (B.E.) in Computer Engineering*Savitribai Phule Pune University***Nashik, Maharashtra***2017 – 2021*
